

Office Boy Calling System

Wireless bells system:

Consist of wall mounted Display screen (230v power supply) to display calling numbers, can display the last three called numbers at the same time.

The second part is the remote office bell, each bell programmed with unique number, any time

your press the calling button the office number will be shown on the display screen along with melody sound.

The bells are battery operated long life, distance 50 ~ 80m & we have repeaters to extend the distance if required.

Display

Office Bell

* Along with this system you can add Office Boy pager with LCD screen to display calling numbers, this pager can allow the office boy to receive the calling numbers from 300~500m a way from the kitchen, in addition it keeps the last 10 called numbers in the memory. Pagers are rechargeable.
